Figure Us Out

Celebrity Match

A way to explore personality differences through familiar public figures.

Choose two celebrities at figureusout.com/explore and compare their estimated personalities. Public celebrity pairings need no sign-in. The activity is for fun; it does not predict a real relationship or imply an endorsement.

Build a post around one difference

Show the names, an actual result and one chart difference. Open a reveal card that gives you something specific to discuss, then add your honest reaction. You can keep one celebrity selected and change the other to explore a different pairing.

An optional caption

"Choose two celebrities and compare their estimated personalities. Look at where they seem similar and where their preferences differ, then try another pairing: [CELEBRITY LINK]"

Replace the placeholder with your personal Celebrity Match link. Keep the estimate note and disclosure beside your recommendation: "I may earn a commission if you later buy through my link or code."

To compare yourself with a celebrity

Take the free assessment, then add your name and verify your email to read your initial report and try personal Celebrity Match. Use your personal free-assessment link when that is the invitation in your post. Sending your partner an email invitation also gives you the remaining personal chapters and personality types for free.

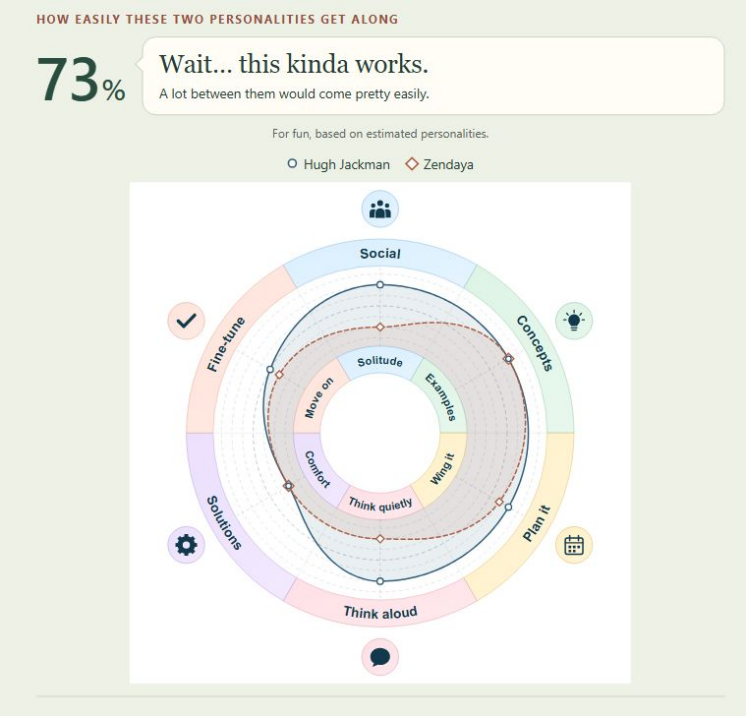

Keep the example accurate

Show actual results and describe celebrity profiles as estimates. Get agreement before sharing another person's results. A copied result URL does not replace your personal affiliate link.

Figure Us Out

Showing the experience

Use an actual product view and explain the detail you are pointing out.

Example product screenshot: Hugh Jackman + Zendaya, captured September 27, 2026. This is an estimated pairing, not an endorsement or prediction about their real relationship. The chart image contains no celebrity photographs.

If viewers want the full couples guides

The couples package adds your written couples guidebook, personalized 12-week workbook, AI guide, downloadable PDFs and a print-ready book with both personal reports, your couples guidebook and workbook. Printing and binding are separate. People who already know their MBTI type, Enneagram type and wing can use the paid shortcut.

$35 regular; $25 for both with an eligible affiliate code, before applicable tax. One payment, no subscription. You earn $10 on an eligible first purchase under the program terms. Free activity visits do not earn commission. Ask buyers to check the discount before paying.

Keep screenshot-credits.txt with reused screenshot assets. Photo-based reveal cards carry separate photo credits and licensing details. Materials and personal links: figureusout.com/affiliates/materials.
